

The deadline for submission of communications to the **X Congress AEIP-APENA-ECOMED, Bioengineering in the Mediterranean Area**, which will be held in Madrid, at the Polytechnic University, on 21, 22 and 23 next November, has just been opened.

## DATES

- Submission deadline: **7<sup>th</sup> September 2018**
- Acceptance of selected papers: **21<sup>th</sup> September 2018**
- Submission of full papers: **21<sup>th</sup>, October 2018**

Call for papers is now open. A specific Scientific Committee will select a total of 12 communications. Communications will be eligible for the prize ECOMED.1 and 2 The rest of the works will be presented as poster. All the works are eligible for the Prize selected by the public

**Languages:** English or Spanish. The congress will be held in Spanish and English with simultaneous translation.

**ADDRESS:** Please send the work to [congreso@aeip.org.es](mailto:congreso@aeip.org.es)

## Thematic Areas

The different fields of action of the bioengineering techniques will be classified into two broad thematic areas:

### Bioengineering of water

River restoration and revitalisation

Storm water management and rain gardens

Regeneration of wetlands, reservoirs and coastal areas

River management and citizen participation

### Bioengineering of soil

Hydro forest restoration activities in mountain areas, slope stabilization

Linear infrastructures: highways, gas pipelines and railways

Extractive activities, mines, quarries and landfills

Research, techniques, materials, modelisation and calculation

## ABSTRACT FORMAT

1 Page A4 Word, Arial 11, simple space.

Thematic Area, Title, Author(s), Institution or company, address and e-mail.

Text: up to 2000 characters excluding title and references.

Keywords (till 5 keywords not included in the title).

Optional: till 2 pictures with 300 ppp resolution insert in the A4.

To present a communication or a poster, one of the authors should be registered in the conference.
