

The call for papers for the **XI AEIP-EFIB Congress Soil and Water *Bioengineering, a Nature-based Discipline***, has just opened.

KEY DATES

- Call for papers : **8 May to 15 June 2025**
- Author communication : **15 July 2025**
- Reduced rate registration: **31 July 2025**
- Full rate registration: **1 August - 22 October 2025**

Languages: English, Catalan, and Spanish. The congress will be held in Spanish, Catalan and English with simultaneous translation.

Sending Abstract to: congreso@aeip.org.es

SUMMARY FORMAT

1 Page A4 Word, Arial 11, single-spaced.

Subject area, title, author(s), institution or company, address, and e-mail address.

Text: up to 2000 characters excluding title and references.

Keywords (up to 5 keywords not included in the title).

Optional: up to 2 images with 300 ppm resolution inserted in A4.

To present a paper or poster, one of the authors must be registered in the conference.

THEMATIC AREAS

Water Bioengineering

River restoration and revitalisation

Rainwater management

Regeneration of wetlands, coastal areas and dunes, and phytoremediation

River management and citizen participation

Soil Bioengineering

Hydrological restoration, mountain areas and slope stabilisation

Linear infrastructure (roads, railways, gas pipelines)

Extractive activities (mines, quarries, rubbish dump, and landfills)

Techniques, materials, modelling and calculation

Bioengineering, Planning and the Urban Environment

Green infrastructure and planning

Ecosystem restoration

Urban renaturalisation
